Beverley Joint Sixth

November Issue

## Children In Need

Friday 20th November

This year's BBC Children In Need is coming up on Friday 20th November, and our Student Leadership Team has worked very hard organising various fundraising events for the sixth form and the rest of the school.

### Uniform Day

Friday 20th November.

All those willing, come to sixth form in your good old school uniform. £1 donation suggested—give to your SLT rep.

### Netball Game

Friday 20th November

A team is needed to take on the teachers of Beverley High School. Put your name down on the list in the High School common room.

### Guess How Many Sweets In The Jar

Tuesday and Friday

Winner (or closest) wins the whole jar! See Sophie Newbitt or Amelia Rangeley in the common room.

### Guess The Name Of The Teddy

Tuesday and Friday

Choose from a list of names. The winner gets the teddy! See Sophie Logan or Tom

Wescott in the common room.

### Quid Grid

Pick a number from the grid. £1 per number. Winner gets £20. See Alice Lawson in the common room.

### Sixth Form Cake Bake

A variety of delicious cake, buns, bakes etc. All day Friday in the common room. Kindly run by Sarah Walker, Nick Try and Charles Meade.

**There will also be a loose change bucket, if by the end of the day your pockets are still jangling!**

**A big thank you to all of the Student Leadership Team for all their hard work!**

Report by: James Brown

## Christmas Party

'Tis the season... nearly.

The Student Leadership Team (SLT) are arranging a Christmas party for both Y12 and Y13. Only Y12s who have paid their £5 to the sixth

form fund will be allowed to buy a ticket.

Please get your £5 to either Nick Try or Sarah Walker as soon as

possible. Details on the Christmas Party will be announced as soon as they are available on the notice boards.

See you there.

# Workshops

***Interested in Physiotherapy, Criminal Law, Medicine, Veterinary Medicine, Physics, Business or Chemistry? Get a taster of what its like at Workshop Conferences this December at The University Of Nottingham.***

## **MEDLINK**

Medlink is a unique four-day course offering interactive surgery, patient contact, clinical skills sessions, stimulating presentations, interview workshops, the opportunity to meet medical students and representatives from many of the UK medical schools, and much more. For more information visit [www.medlink-uk.com](http://www.medlink-uk.com). £51.25 per day

13th—16th December 2009 and  
16th—19th December 2009

## **VET-MEDLINK**

Through a combination of large animal, small animal and other programmes, Vet-Medlink has the goal of preparing students to enter a profession that for many is a vocation and a passion. Excellent speakers combine with veterinary students to advise on the work of practising and future vets, in addition to superb advice and support on winning a place at a veterinary school. If you're serious about becoming a vet this conference is for you. £42.50 per day.

14th—17th December 2009

## **PHYSIOTHERAPY**

Physiotherapy is one of the most popular professions in modern medicine, offering as it does superb opportunities for both state and private work with a range of patients that could include some of the most famous names in sport. As a consequence physio-

therapy is highly competitive, but through a variety of stimulating presentations, students will have both their knowledge of physiotherapy widened and their application to university strengthened with this exciting conference. £60 pp.

12th—13th December 2009

## **CRIMINAL LAW**

Criminal Law offers important and challenging areas of work and study for intelligent and motivated young people. Through a rich selection of presentations and interactive exercises, this conference seeks to capture the breadth and excitement of criminal law, as both an academic subject, and as a profession. For this reason the conference offers an excellent opportunity for anyone with a serious interest in criminal law as either a career or subject of study. £60 pp.

12th—13th December 2009

## **PHYSICS**

From an explanation and simulation of the Large Hadron Collider at CERN, through to new theories on black holes and their study via the creation of mini black holes formed in particle colliders, this course offers a superb insight into the state and direction of 21st century physics. Using presentations, simulations and laboratory demonstrations, explore physics from astronomy nanotechnology, including the Nobel prize-winning work of Magnetic Resonance

Imaging of University of Nottingham physicist Sir Peter Masfield. £60 pp.

17th—18th December 2009

## **BUSINESS AND MANAGEMENT**

Business and management courses attract students who are motivated and open to challenge, offering the prospect of careers with tremendous personal and financial potential. The rewards and demands of business and management, both at A-level and university, and are explored in this conference, through a wide range of presentations which aim to prepare and motivate young people for a future career in business and management. £60 pp.

## **EXPLORING CHEMISTRY**

This conference aims to inspire and inform students studying chemistry at all levels. As the presentations will demonstrate, modern chemistry is one of the most fascinating and important subjects for the science student to explore. During the conference speakers will demonstrate the significance and excitement of chemistry and the many possible futures for research and study that chemistry offers. £60 pp.
